

# PhD Topics with Me

*Human-Computer Interaction (HCI) – Accessibility – Novel Interaction Techniques*

- Technologies for **highly personalised** digital content **creation** and **consumption** approaches which adapt to **data** about user needs, context and setup (possible BBC R&D support)
- Technologies to **support communication** for people with communication impairments with wearables, IoT devices, or remote presence technologies (e.g. zoom, etc)

Timothy Neate – Human Centred Computing (HCC) – KCL
